Nov./Dec. 2017

Nano Brief

Ebatco

Season's Greetings

Dear Customers and Friends,

All of us at Ebatco would like to say thank you for your continuous support, business, and encouragement. With your help, Ebatco has celebrated its 10th anniversary this year. The Nano Analytical and Testing Lab continues to grow and thrive, recently adding a WITec Alpha 300RA combined Confocal Raman and Atomic Force Microscope, along with an Agilent Cary 600 Series FTIR Spectrometer and Microscope, to better support your chemical analysis needs.

As 2017 draws to a close, Ebatco is extremely pleased to inform you of the successful completion of our ISO/IEC 17025:2005 certification process! Our staff have been working diligently with Perry Johnson Labs for the majority of the year to ensure that our quality system and testing protocols meet the stringent requirements set forth by the international standard. Now, Ebatco is ISO/IEC 17025:2005 registered!

May you have a very happy holiday season and a great 2018!

Yours sincerely,

*Dehua Yang, Ph.D.
President*
